

Draw Your Site Plan Here (ruler required)

The following elements (if applicable) must be indicated on your site plan submission for review:

- Property lines
- All buildings / structures on the property
- Driveway and street locations
- Setback dimensions to property lines must meet zoning standards
- Indicate proposed construction
- Overhead power conductor locations
- Well, septic system (holding tank, distribution piping)
- Drainage swales
- Shoreline (high water mark)

*See the reverse side for an example site plan

Example

If Shoreline property, Measure from High Water Mark
